

IMPROVEMENTS IN WROUGHT IRON.

Take scraps of wrought iron and melt them in a cupola furnace with a soft fan blast or use a reverberatory furnace, as for melting pig iron. After being melted, it is poured into moulds, and is very hard and brittle. After this it is put into an iron box, if a small quantity is wanted, surrounded with bricks, iron ore and charcoal dust being placed between the box and the bricks, and the whole submitted to a degree of heat to restore the malleability of the iron. A trial bar is used to be withdrawn from time to time to ascertain the degree of malleability to which the mass has obtained. For making articles which do not require to possess the density and texture of wrought iron alone, mix therewith cast iron in various proportions, according to the nature and requirements of the article, taking care that the proportion of cast iron is no instance exceeds the weight of the wrought iron. In making articles which require to take the nature and temper of steel, mix with the wrought iron, steel in various proportions, according to circumstances—the proportion of steel never exceeding the weight of wrought iron: then pour the molten metal into moulds, and submit it to the annealing process, in the manner before described.

The annealing may also be performed without the iron box by simply covering the metal with the ore and charcoal dust in a proper kiln.

A GENTLEMAN.

Did you ever see a gentleman? We have seen two or three in our day, but real gentlemen are very rare. A gentleman is one who treats every body with respect, whether he be black or white, low or high, poor or rich. He does not bow to wealth, scrape his knees to honor, nor hold his tongue when he sees wickedness in high places. You always receive from him a civil answer to your enquiry, and he kindly imparts to you any information in his power. He will not say a word to injure your feelings, or allude to a subject to pain your heart. Whatever may be done, he will not manifest angry feelings, or use unbecoming language. He uses no profane or indecent words, smokes no cigars in your presence nor spits tobacco juice on your floors. He is the same kind and accommodating individual, from one week's end to another.

CHLOROFORM A SUBSTITUTE FOR STEAM.

On the 22d of August, a committee, appointed by the Academie des Sciences, Paris, went to the establishment of M. C. Beslay, to witness a trial of a discovery made in the application of chloroform as a motive power in machinery. It will be recollected that the Minister of Marine had an engine constructed for trying other as a motive power. This engine was found to act well, and afford a considerable saving in fuel, but it was rejected on account of the inflammability of ether, which rendered it too dangerous for use in steam vessels. Lieut. Lafont, of the Navy, however, studied the nature of chloroform, ascertained that it was capable of producing a great motive power, at a saving of 50 per cent., and that no danger is incurred. The experiment is said by our exchanges to have been completely successful.

IMPORTANT TO THE LADIES.—The London Gazette contains some important information for the ladies with regard to the manner of placing their lips when they desire to look amiable, dignified, &c. It suggests that when a lady would compose her mouth to a bland serene character, she should just before entering the room, say *Besom*, and keep the expression into which the mouth subsides until the desired effect upon the company is evident. If, on the other hand, she wishes to assume a distinguished and noble bearing, not suggestive of sweetness, she should say, *Brush*, the result of which is infallible. If she would make her mouth look small and pretty she must say, *Flip*, but if the mouth be already too small and need enlarging, she must say, *Cabbage*. Ladies, when having their daguerotypes taken may observe these rules with some advantage.

NATURAL RELIGION.—We have heard a great deal about natural religion, and after some little trouble have arrived at its principles. They appear to be comprised in the following articles of faith:

1. Look out for number one.
 2. Keep what you've got, and get what you can.
 3. Get money, honestly if you can; but be sure and get it.
 4. Every one for himself, and the devil take the hindmost.
- That these are the true principles of the religion of nature, is to be inferred from their being spread over the earth so universally, and practised by a majority of the people of all countries.

If an eye of black be enchanting, and a blue eye be bewitching, how much superior must his charms be, whose eye is both black and blue.

Dr. Wistar's Balsam of Wild Cherry.

The Great Remedy for Coughs, Colds, Asthma, and all Diseases of the Lungs.

OLD VIRGINIA AGAIN.
Albermarle Co. Va., March 21st, 1847.
Mr. Seth W. Fowler—Dear Sir—I take pleasure in stating to you my experience in the use of Wistar's Balsam of Wild Cherry. I own a very valuable negro girl, who was attacked with a difficulty of the lungs, which brought her in appearance to the brink of the grave. I consulted some of our best Physicians, who pronounced her incurable, or that they could do no more for her. I tried many remedies but none did her good. I saw some account of Wistar's Balsam, and thought I would try it, but had little faith in it. I procured a bottle, which was administered according to directions, and saw she began to mend; and before the first bottle was gone she was up. I procured a second and she took that, and now she is I think, cured, or nearly so. She attends to her daily labor, and I hear no complaint from her.

Consumptive Patients.—Will please read the following note from the Harrison Gazette. The incredulous are invited to read the following note from Rev. Mr. Cudron, whose character for truth and veracity is above suspicion, and have their doubts dispelled as to the superiority of Wistar's Balsam of Wild Cherry, over all other remedies now before the public of the same character.

Corydon, Ind., Jan. 29, 1848.
It is no less a duty than a pleasure to state, for the benefit of the afflicted, that I consider Wistar's Balsam of Wild Cherry, a great blessing to the human race. Having tried it in a case of severe affliction of the lungs, I unhesitatingly recommend it to those similarly afflicted, as the best remedy I have ever tried, and one which cured me when physicians said I must die, and when I thought myself that my time to depart was near at hand.

CAUTION TO ALL.—The genuine Wistar's Balsam is enveloped in a fine white steel engraved wrapper, with the names of Henry Wistar, M. D. and Sanford & Park thereon. Without both these signatures, it is positively counterfeit. Do not touch it.

Orders for the true medicine may be addressed to H. BLAKESLEY & Co., south-west corner Third and Chestnut streets, St. Louis. It is sold also by
DR. SNELSON, Glasgow.

October 26, 1848.
It always cures—Dr. Osgood's Indian Chloagoge.—How astonishing is it—the suffering invalid will use palliative only, with a view to restore health, while lingering on weeks and even months, with that distressing, loathsome disease, Fever and Ague, when by the use of a single bottle of the Chloagoge, not only the disease itself, but the cause which produced it, is completely eradicated. It is sold by
Dr. Henderson, Glasgow; N. & A. Johnson, Brunswick.

Clemen's Indian Tonic.
Infallible Cure for CHILLS, or AGUE and FEVER, and a sure remedy in BILIOUS REMITTENT, and other FEVERS. THIS INVALUABLE MEDICINE IS PURELY VEGETABLE

THE unexampled success of this truly unrivalled Tonic, in curing in a few hours, where all other remedies have failed, and that too, in cases from six months to ten years standing, warrants the assertion, that if taking according to directions, it is infallible. A long list of certificates in proof of its infallibility might be added, but those upon the wrapper are deemed sufficient. Try it and be convinced that it is the most pleasant, most certain, and the very BEST remedy ever offered to the public for putting a speedy termination to the Chills or Ague and Fever.

From the great popularity of this medicine, many imitations, professing to be CLEMEN'S INDIAN TONIC, are about. Therefore, be sure to ask for that prepared by GEO. W. HOUSE, Nashville, Tennessee, who is sole proprietor.

CERTIFICATES.
NEAR NASHVILLE, August 19, 1848.
Mr. Geo. W. House: Dear Sir—I had Chills and Fevers for twelve months; nine months of the time, without being able to check it, with all the aid I could procure from Physicians and the various Tonic Fever and Ague mixtures sold by the Drug stores. In April last I saw your advertisement of Clemen's Indian Tonic, as an infallible cure. I made no delay in calling upon you, and by using said Tonic, I found immediate relief, and a permanent cure. My friend of mine tried it about the same time, with the same happy result. Yours, respectfully,
C. L. GLASSGOW.

From the *Clarksville Chronicle*, Oct. 21, 1848.
Dr. T. D. Scott: Dear Sir—We have used Clemen's Indian Tonic in many cases of Ague and Fever, and we find it, in every particular, what it is commended to be in your advertisement. We have heretofore used most of the popular remedies in use for Fever and Ague, and we unhesitatingly recommend Clemen's Tonic to the confidence of the public, from our personal experience and observation, as a safe, certain, and prompt cure for the Ague and Fever, in any form or stage of the disease.
Yours, &c.
P. PEACHER.
JAMES J. PRITCHETT,
LEVI COLEMAN.

Extract of a letter from the Rev. F. A. OWEN of Memphis, dated Nov. 10, 1848.
My Dear Sir—I have tried Clemen's Indian Tonic in six different cases, and find it efficacious in a very high degree. It arrested the chill in every instance, and as yet there has been no return. I cheerfully give this testimony, that others may be induced to use a remedy both safe and efficacious in curing chills and fever.
Yours, very truly,
F. A. OWEN.

NASHVILLE, June 3rd, 1848.
Mr. Geo. W. House: Dear Sir—I shall make no apology in presenting the following remarkable case: A youth of about fifteen years old, living with me, had the Fever and Ague for ten years, without finding a cure; and I can assure you every remedy was used to that effect. In December last I tried a bottle of "CLEMEN'S INDIAN TONIC," which arrested the disease at once, and am happy to state, he has not had a chill or an ague since. You should lose no time in giving this Tonic an extensive circulation—it will prove a welcome friend and a great blessing to the afflicted.
Yours, truly,
JOHN H. DAVIS.
The above case is known to me, and is strictly true.

Monthly Bulletin No. 9.
THE position of the Graefenberg Company in its relation to the health of the community is now fully established; and the admirable series of Graefenberg Medicines are everywhere taking the lead of all others.

In numerous portions of the country the Medical Faculty adopt these medicines in their practice, satisfied, from ample tests, that by their use they can more certainly combat DISEASE, IN ALL ITS FORMS. And not only do Physicians sanction and encourage their use, but the CLERGY, of every denomination, attest their wonderful efficacy; and in numerous ways recommend them to the people of their charge. THE LEGAL PROFESSION testify to the same thing, in short, the public at large hail the introduction of these medicines as a public blessing.

There are over TEN THOUSAND AGENCIES of the Company in the United States, which are not only profitable to the agents, but of vast benefit to the community. There should not be a single town, village, or hamlet, without its Graefenberg Depot; and if this Bulletin is read where there is no agency, application should be made for one immediately.

Certificates, almost without number, are on file at the office of the Company, testifying to cures of the most astonishing kind; many of which have been duly examined by the following distinguished gentlemen: Rev. N. Bangs, D. D. Francis Hall Esq., Ex-Mayor, Mayor of New York.

"The power of the Graefenberg Medicines over all bilious complaints, no matter what their form or severity, is a matter of profound astonishment. Let all, therefore, who are thus afflicted, and who would cleanse the system, resort at once to the celebrated GRAEFENBERG VEGETABLE PILLS AND HEALTH BITTERS. At all events let them call at some one of the agents and get a pamphlet gratis, which will fully explain the whole matter.

The General Agent for Missouri, and South part of Illinois, is E. K. WOODWARD, St. Louis, to whom applications for agencies may be addressed.

COLVER'S Patent Concave Beater Churn.
WE call the attention of the public to the article heading this advertisement, and invite the enterprising and curious to call and witness its operation. An advertisement in relation to this invention, to the hundreds who have seen it tested, is supererogation.

First, This Churn will produce butter, gathering it in a mass, from sweet milk, in five to ten minutes, and from cream prepared, as families usually prepare it, in three to five minutes.

Second, The utility of this invention is apparent, as better butter can be produced from sweet milk, or cream, than cream sourced in the usual way; and by means of this Churn, a little girl or boy can perform, in five or ten minutes, what has heretofore required the labor of a woman or man for one or two hours, and sometimes half a day.

Third, By simply turning a thumb-screw, the whole inside dasher is taken out, leaving nothing but the butter and milk in the plain wooden box.
